

GUIDED BY INNOVATION. DRIVEN TO PERFECTION.

And fully invested
in your success.

For over 30 years, ASI has designed, engineered and manufactured complex wheel drive systems and transaxles recognized globally for their robust construction and worry-free dependability. During that time, we've become the known and trusted partner to companies ranging from small, independent startups to large, multinational organizations. Whether off-the-shelf or fully customized, they know our products will solve their challenges quickly and cost effectively. It's why they turn to ASI first.

- The battery-powered vehicle and machine markets rely on our demonstrated commitment to engineering excellence
- Highly disciplined manufacturing processes keep costs down and quality high
- Custom projects can be taken from concept to working prototype in as few as two weeks
- We scrutinize every detail, from material selection through final computerized inspection
- We're easy to work with, committed to your satisfaction and fully invested in your success
